

EV1

Simple single elevator standalone

SOYAL

Access Control System

Date: 26 Feb 2008, Revision: V1

General Description

Authorized floor for each user is programmed into the reader through its keypad or 701 software. Support up to 1024 cards and 16 floors (max 64 floors). Add AR401R016 to support additional 16 floors. Operator can specify when (time zone), which floor user can access.

Users get into elevator car and flashes the card to the reader installed beside the floor buttons. User is only allowed to select floor that is authorized for his access. Building manager will be able to control, monitor and generate access log daily, monthly and yearly report from PC.

Application

Elevator Access Control System for Condominium for a better security to block entry of intruder. Building Offices to control employees on which floor employees can access, etc.
